INFECTION CONTROL & STERILISATION WORKSHOP

- Date:** Saturday, 14th August, 2010
- Time:** 8.45am – 4.30pm
(Full day workshop – lunch, morning & afternoon tea provided)
- Venue:** The Vibe Hotel
111 Goulburn St, Sydney, NSW
- Cost:** NSW DAA Members \$110.00
Non Members \$155.00

Presented by – Ms Terry McAuley

Ms Terry McAuley is a Principal Consultant for STEAM Consulting and representative on the Australian Standards Committee for Infection Control. Terry travels extensively and contributes to numerous infection control publications. She is a very popular presenter and will cover specific issues relevant to dental practices.

Did you miss our last Infection Control Workshop? We have had many requests for a repeat of this popular workshop and presenter, so Terry will be available once again to further dispel the myths of sterilization and infection control in dentistry and provide you with the facts and accurate information. If you want facts and a current legislation update, this is the course for all dental practitioners and staff to attend.

Don't miss this opportunity. Here are some of the responses from our last workshop:

"Lecture was informative and easy to understand information I could use"

"Terry answered all my queries – learnt such a lot"

"Terry is certainly very knowledgeable! She covered all my questions really well"

"Great course – well constructed and good venue and food"

**Highly
recommended
for all dental
professionals**

- Legislation requirements
- How disease is transferred
- What are we protecting against
- PPE, Hand hygiene, alcohol rubs
- Staff Immunisation
- Cleaning & disinfecting – which product
- Manual, Ultrasonic, Thermal cleaners
- Sterilisation & monitoring
- Tracking & validating
- Record keeping
- Injury management & reporting

Statement of Attainment

As a registered Training organization, the NSW DAA can offer participants the opportunity of gaining a Statement of Attainment in the unit HLTIN301A – Comply with infection control policies and procedures in health work.

Those participants wishing to obtain this nationally recognized statement of attainment may undertake a short written assessment at the close of the session. Participants who successfully complete this assessment will receive their statement of attainment.

HLTIN301A is one of the 8 compulsory units which contribute to Certificate III in Dental Assisting.

IMPLANT WORKSHOP

"The Team Approach to achieving optimal implant results"

- Date:** Saturday, 14th August, 2010
- Time:** 8.00am – 3.00pm
(Full day workshop – lunch, morning & afternoon tea provided)
- Venue:** Nobel Biocare Training Centre
Level 4/7 Eden Park Drive,
Macquarie Park NSW
- Cost:** \$50.00 per participant includes materials, refreshments and lunch

Nobel Biocare and NSW DAA join together to provide an extensive presentation covering all aspects of how to attain predictable outcomes for today's patients with a strong emphasis on the importance of a team approach and the interaction between clinicians and auxiliary staff. This course is suitable for practitioners and staff to attend as a team or individual registrations

Presenters: Dr Justin Darby – Periodontist
Dr Markijan Hupalo – Prosthodontist
Ms Rosalyn Dunbar – Clinical Assistant
Vivien Munoz-Ferrada – Imaging Radiology Specialist

Program:

- Assessment for Implant Dentistry
- Increasing implant case acceptance
- Surgical setup protocols and procedures
- A restorative approach to surgical placement of implants
- Planning, placement and restoration: the advantage of a team approach
- Troubleshooting – surgical/prosthetics
- Introduction to CT & Cone Beam Scans
- Hands on exercises for clinicians and auxiliary staff – implant placement & impressions

SAFETY IN A BOTTLE

- Date:** Saturday, 28th August, 2010
- Time:** 9.00am – 1.00pm
- Venue:** NSW DAA Professional Centre
4/116 Percival Rd, Stanmore
- Cost:** NSW DAA Members \$20.00
Non Members \$25.00

Reynard Health will be one of the presenters for this workshop. We will specifically look at the use of alcohol hand sanitisers and other cleaning and disinfecting products, how effective are they and when can they be used.
